

Maysan Labs

About the company:

Maysan Labs is an innovative technology company dedicated to building cutting-edge software solutions, websites, e-commerce platforms, and School Management Systems. We believe in fostering young talent and providing a sandbox for creative problem-solving.

PROFILES OFFERED:

1.Sales Intern

Roles Overview:

We are looking for a motivated and curious Sales Intern to join our team. In this role, you will step out of the classroom and get hands-on experience working on real-world projects that impact our business growth and client acquisition. You will be directly mentored by senior team members and have the opportunity to take ownership of client outreach initiatives.

Responsibilities:

- Collaborate with the marketing and sales team to pitch our tech solutions and campaign strategies to prospective clients.
- Participate in team brainstorming sessions and bring fresh perspectives to the table.
- Analyze market trends and lead data, and present your findings to the team.
- Assist in troubleshooting client questions and resolving day-to-day sales challenges.
- Learn and apply industry best practices in B2B tech sales under the guidance of your mentor.

Requirements:

- Education: Currently enrolled in or a recent graduate of a Bachelor's/Master's program in Business, Marketing, Communications, or a related field.
- Skills: Basic understanding of sales principles, customer relationship building, and online communication. (Keep this realistic for a student level!)
- Soft Skills: Strong communication skills, a high degree of curiosity, and a proactive problem-solving mindset.
- Bonus Points: Previous academic or personal projects related to sales, marketing, or business development.

Perks:

- Mentorship: 1-on-1 guidance from industry experts.
- Real Impact: You won't just be fetching coffee; you will work on projects that ship to production/clients.
- Culture: A highly collaborative, flat-hierarchy environment where your ideas matter.
- Compensation: Performance-based stipend + remote work flexibility.

MODE OF INTERNSHIP:

- Remote/Work from home

2. Junior Developer Intern

Role Overview :

We are looking for a motivated and curious Junior Developer Intern to join our team. In this role, you will step out of the classroom and get hands-on experience working on real-world projects that impact our business. You will be directly mentored by senior team members and have the opportunity to take ownership of key development tasks.

Responsibilities :

- Collaborate with the engineering team to design, build, and test new software features and website components.
- Leverage AI tools: Utilize AI coding assistants to optimize code generation and help integrate AI-driven features into our existing software and web solutions.
- Participate in team brainstorming sessions and bring fresh perspectives to the table.
- Analyze code and technical requirements, presenting your findings to the team.
- Assist in troubleshooting and resolving day-to-day challenges.
- Learn and apply industry best practices under the guidance of your mentor.

Requirements :

- Education: Currently enrolled in or a recent graduate of a Bachelor's/Master's program in Computer Science, Software Engineering, or a related field.
- Technical Skills: Solid understanding of programming languages, specifically JavaScript and C++, along with modern web development technologies.
- AI Curiosity: Basic familiarity with or a strong interest in using AI for coding and exploring AI API integrations.
- Soft Skills: Strong communication skills, a high degree of curiosity, and a proactive problem-solving mindset.
- Bonus Points: Previous academic or personal projects related to web development, software creation, or AI integration.

Perks:

- Mentorship: 1-on-1 guidance from industry experts.
- Real Impact: You won't just be fetching coffee; you will work on projects that ship to production/clients.
- Culture: A highly collaborative, flat-hierarchy environment where your ideas matter.
- Compensation: Performance-based stipend + remote work flexibility.

MODE OF INTERNSHIP: Remote / Work from Home.
