

Web3task

About the Company:

Web3task specializes in **end-to-end technology solutions**, bringing **tech, AI, design, and automation under one roof**. We work closely with startups to design and develop **SaaS platforms, conversion-driven dashboards, AI-powered systems, and workflow automation solutions** that are fast, reliable, and ready to scale. Our startup-first approach enables us to deliver MVP-ready solutions without compromising on quality or user experience.

PROFILES OFFERED:

1. Full Stack Developer Intern

Responsibilities:

- Assist in developing and maintaining user-facing features using HTML, CSS, and JavaScript.
- Work closely with designers and back-end developers to implement responsive and interactive web interfaces.
- Convert UI/UX wireframes and designs into fully functional web pages.
- Write clean, readable, and maintainable code with guidance from senior developers.
- Participate in code reviews and follow best coding practices.
- Debug and fix front-end issues to ensure smooth performance across browsers and devices.
- optimize web pages for speed, performance, and scalability.
- Test websites for responsiveness and cross-browser compatibility.
- Assist in API integration and third-party services.
- Learn how browsers parse, execute code, and handle network debugging.
- Perform basic front-end performance audits using tools like Lighthouse or React Profiler.
- Support deployment activities using platforms like Vercel, Netlify, or CI/CD pipelines.
- Maintain basic documentation of development processes and components.
- Stay updated with the latest front-end technologies, tools, and trends.

Required Skills for Front End:

- Good understanding of JavaScript (ES6+).
- Experience with Node.js and Express.js.
- Basic knowledge of MongoDB or MySQL.
- Familiarity with RESTful API design.
- Understanding of authentication methods (JWT, OAuth).

Required Skills for Back End:

- Good understanding of JavaScript (ES6+).
- Experience with Node.js and Express.js.
- Basic knowledge of MongoDB or MySQL.
- Familiarity with RESTful API design.
- Understanding of authentication methods (JWT, OAuth).

Requirements:

- Students pursuing Computer Science / IT / Web Development or related fields
- Freshers looking to start a career in Front-End Development
- Candidates with a learning mindset and interest in modern web technologies

Perks:

- Hands-on experience on **live industry and client projects.**
- Professional mentorship from experienced industry professionals.
- Exposure to **SaaS products, AI tools, system integrations, and automation workflows.**
- Internship certificate and **performance-based recommendation letter.**
- Opportunity for **full-time employment** based on performance and organizational requirements.

Mode of Internship:

- On-site / Hybrid

Working Days:

- 5–6 days per week

2. Content Writer Intern

Role Overview:

Create engaging and SEO-friendly technical content for digital platforms.

Responsibilities:

1. Technical Content Writing

- Write clear, engaging, and well-structured content related to technology products, SaaS solutions, software tools, and digital platforms.
- Create content for blogs, website pages, product descriptions, documentation, and social media posts.

2. Research & Topic Understanding

- Research technology trends, software tools, SaaS platforms, and digital products.
- Understand technical concepts and convert them into easy-to-read content for a nontechnical audience.

3. SEO & Content Marketing

- Write SEO-friendly technical content to improve search visibility.
- Support content publishing on platforms such as Medium, Quora, blogs, and knowledge sharing platforms.

4. Editing & Content Quality

- Proofread and edit content for grammar, clarity, structure, and technical accuracy.
- Ensure content aligns with brand tone and quality standards.

5. Collaboration & Learning

- Coordinate with marketing, product, and design teams to align content with overall goals
- Implement feedback and continuously improve writing skills.

Requirements:

- Strong written English skills
- Basic understanding of technology, SaaS products, or software solutions
- Interest in tech, startups, and digital tools
- Ability to research and explain technical topics clearly
- Basic knowledge of SEO (preferred, not mandatory)

Mode of Internship:

- On-site / Hybrid

Working Days:

- 5–6 days per week

Perks:

- Portfolio building
- SEO & content marketing exposure
- Certificate + LOR

3. Social Media Intern

Role Overview:

Manage social media platforms and create engaging content.

Responsibilities:

1. Content Creation & Ideation

- Create creative and platform-specific ideas for posts, reels, stories, and short videos for Instagram, LinkedIn, Facebook, and YouTube.
- Write engaging captions and hashtags aligned with current trends.

2. Design, Video Editing & AI Tools

- Design attractive graphics and edit short videos using tools such as Canva, CapCut, Filmora, or Adobe After Effects.
- Use AI tools for content ideation, caption writing, creatives, and basic video edits.
- Ensure content follows platform trends and formats.

3. Social Media Management

- Plan, schedule, and publish content consistently across all social media platforms.
- Monitor comments, messages, and mentions to engage with the audience and build brand interaction.

4. Analytics, Strategy & Algorithms

- Track insights such as reach, engagement, impressions, and follower growth.
- Understand and apply social media algorithms to improve content performance.
- Identify trends and suggest content improvements based on data.

5. SEO & Content Marketing Support

- Support content posting and engagement on platforms like Quora and Medium.
- Influencer Outreach and content marketing activities to increase visibility and traffic.

Requirements:

- Basic understanding of social media platforms and their algorithms
- Hands-on experience with Canva, CapCut, Filmora, or similar tools
- Familiarity with AI tools for content creation
- Creative mindset with good communication skills
- Willingness to learn and adapt to trends

Mode of Internship:

- On-site / Hybrid

Working Days:

- 5–6 days per week

Perks:

- Creative portfolio
- Trend & algorithm learning
- Certificate

4. UI/UX Design Intern

Role Overview:

Design user-friendly interfaces and improve user experience.

Responsibilities:

- Collaborate with the product, development, and marketing teams to gather requirements and create user flows, wireframes, and prototypes.
- Design intuitive and engaging interfaces for websites, web apps, and mobile apps.
- Conduct user research and usability testing to gather feedback and iterate on designs.
- Assist in developing and maintaining design systems and style guides.
- Stay updated with the latest UI/UX trends, tools, and technologies.
- Prepare and present rough drafts to internal teams and key stakeholders.

Requirements:

- Currently pursuing or recently completed a degree/diploma in design, human-computer interaction, computer science, or a related field.
- Strong understanding of basic UI/UX principles.
- Proficiency in design tools like Figma, Adobe XD, Framer, or similar.
- Good communication and teamwork skills.
- Attention to detail and creativity.
- Basic knowledge of HTML/CSS is a plus (not mandatory).

Mode of Internship:

- On-site / Hybrid

Working Days:

- 5–6 days per week

Perks:

- Design portfolio building
- Real product experience
- Certificate

5. SEO Intern

Role Overview:

Are you passionate about search engines, content optimization, and digital growth? Web3Task is looking for a detail-oriented and analytical SEO Intern who is eager to learn and grow in the field of search engine optimization. As an SEO Intern, you will gain hands-on experience in improving website visibility, driving organic traffic, and implementing effective search strategies in a fast-paced Web3 environment.

Responsibilities:

- Assist in developing and implementing on-page and off-page SEO strategies to improve search engine rankings.
- Conduct keyword research and competitor analysis to identify growth opportunities.
- Optimize website content, meta tags, headings, URLs, and internal linking structures.
- Support technical SEO activities such as site audits, fixing crawl errors, and improving page speed.
- Collaborate with the content team to create SEO-optimized blog posts and web pages.
- Monitor website performance using tools like Google Analytics and Google Search Console.
- Track, analyze, and report key SEO metrics including traffic, rankings, and conversions. 8. Stay updated with the latest SEO trends, search engine algorithm updates, and industry best practices.

Requirements:

- Basic understanding of SEO principles and digital marketing concepts.
- Familiarity with keyword research tools (e.g., SEMrush, Ahrefs, Ubersuggest) is a plus.
- Knowledge of Google Analytics and Search Console is preferred.
- Strong analytical and problem-solving skills.
- Good written and verbal communication skills.
- Eagerness to learn and grow in a startup environment.

Mode of Internship:

- On-site / Hybrid

Working Days:

- 5–6 days per week

Perks:

- Digital marketing exposure
- Analytics learning
- Certificate

6. Project Manager Intern (Girls Only)

Role Overview:

Support project planning and execution using Agile methods.

Responsibilities:

1. Project Planning & Coordination

- Assist the Project Manager in planning, coordinating, and tracking overall project progress.
- Help define clear tasks, timelines, and deliverables for ongoing projects.

2. Agile & Sprint Management

- Participate in Sprint Planning sessions and support defining sprint goals.
- Assist in daily stand-ups, sprint reviews, and retrospective meetings.

3. Documentation & Reporting

- Maintain proper documentation including meeting notes, sprint backlogs, timelines, and client communications.
- Prepare project reports, dashboards, and regular status updates.

4. Task Tracking & Tools

- Use Jira or similar project management tools to assign tasks, monitor workflows, and track sprint progress.
- Ensure tasks are updated and aligned with sprint timelines.

5. Team Coordination & Deadline Management

- Coordinate with developers, designers, and stakeholders to ensure milestones and deadlines are met.
- Follow up on assigned tasks and help remove minor blockers.

6. Risk & Issue Management

- Identify project risks, delays, or blockers and escalate them to the management team on time.

7. Process Improvement

- Share ideas to improve project planning, sprint execution, and documentation standards.

Requirements:

- Basic understanding of project management or Agile/Scrum methodology
- Familiarity with tools like Jira, Trello, Asana, or similar
- Good communication and coordination skills
- Strong organizational and documentation skills
- Willingness to learn and take responsibility

Mode of Internship:

- On-site / Hybrid

Working Days:

- 5–6 days per week

Perks:

- Management exposure
- Leadership skills
- Certificate

7. QA Testing Intern

Role Overview:

Ensure quality and reliability of applications through testing.

Responsibilities:

We are looking for a detail-oriented 'Software Tester (QA Tester)' to evaluate and ensure the quality, performance, and reliability of our web and mobile applications. The ideal candidate should have a strong understanding of testing concepts, a keen eye for detail, and the ability to work closely with developers and product teams.

Requirements:

- Understand project requirements and functional specifications.
- Prepare and execute test cases, test scenarios, and test plans.
- Perform manual testing on web and mobile applications.
- Identify, document, and track bugs using bug-tracking tools.
- Conduct regression, smoke, sanity, and UAT testing.
- Collaborate with developers to resolve defects.
- Verify bug fixes and ensure quality standards are met.
- Maintain proper test documentation and reports.

Mode of Internship:

- On-site / Hybrid

Working Days:

- 5–6 days per week

Perks:

- Software testing experience
- Industry exposure
- Certificate

8. Game Developer Intern

Role Overview:

Develop and optimize 2D games using Unity and C#.

Responsibilities:

- Game Development (2D Focus): Design, implement, and optimize robust gameplay systems primarily using the Unity Engine with C#.
- This includes developing 2D character controllers, environmental interactions, and custom physics behaviors.
- Code Architecture: Focus on writing clean, modular, and reusable code, adhering to software design patterns (e.g., Component-Based Architecture) to ensure project scalability and maintainability.
- System Implementation: Implement and maintain various game systems, including input management, animation integration (Mecanim), and audio systems.
- Technical Agility: Demonstrate an eager willingness to learn and adapt to new programming languages, tools, or platform APIs as project needs evolve.
- Ownership: Willingness to take end-to-end ownership of projects, from initial architecture design to final deployment on target stores (iOS and Android).
- Performance Optimization: Profile and optimize code to ensure smooth frame rates and efficient resource usage on target platforms (PC, Mobile).

Requirements:

- Expertise in Applied Mathematics: Superior comprehension of foundational mathematics, including Vector Algebra, Linear Interpolation, and Trigonometry. The ability to use these principles to calculate movement, rotation, and complex visual effects is essential.
- Deep Knowledge of Physics Principles: Proven understanding of Classical Mechanics, Kinematics (velocity, acceleration, force), and Rigid-Body Dynamics. Must be able to implement, customize, and troubleshoot game physics systems independently.
- Problem-Solving & Analytical Skills: A systematic, analytical approach to troubleshooting complex bugs and optimizing performance bottlenecks across various runtimes.
- Demonstrable Portfolio: A required public portfolio (e.g., itch.io, GitHub, personal website) showcasing completed or significant projects developed in Unity or another modern game engine.

Mode of Internship:

- On-site / Hybrid

Working Days:

- 5–6 days per week

Perks:

- Game development experience
- Portfolio enhancement
- Certificate
